

National Steam Car Association Ltd.

Preserving our heritage with steam on the road

July 2017.

Dear Member,

It is with sincere regret that I am writing to you to inform you of the future of the Club.

At our recent AGM we discussed the forthcoming retirement of Stuart Gray as our magazine editor. For the non-car owning members of our club, the magazine is the only benefit the club has to offer and, having had no luck in finding a successor to Stuart we are bound to make some changes.

Those at the meeting decided that the club will become an informal touring group for steam car owners and those that wish to accompany them. The Club's website (steamcarassociation.org.uk) will continue and will play a much larger part in keeping all interested parties up to date with both our activities and articles of interest.

A tour for next year is being organized by Peter Stevenson in the heart of the Midlands; details will be on the web site in due course.

Light Steam Power information will remain available for the foreseeable future, and articles and drawings may be obtained as usual, by contacting Peter Williams.

We have not been sending out reminders for subscriptions for some time now, as we feel you are not getting value for money with the magazines coming so infrequently, but we have been very grateful and overwhelmed for all your loyalty. Not one single member has queried the time between magazines.

The National Steam Car Association does have funds at present, but once all outstanding debts have been paid we hope in accordance with the Club's "Articles of Association" to be able to make a donation to the National Traction Engine Trust, who were so helpful to us when the Club was first set up.

Stuart has said that he will produce one more magazine for us, which will contain an index of the contents of all the previous magazines, and after that we have to face facts and downsize to a touring group. The magazine will be out sometime in the Autumn.

Thank you so much for supporting the Club over the years, and we hope to still meet you when we are on tour in the future.

With kind regards,
Happy Steaming,

Diana Goddard.
Chairman.
